

Facial Vein Removal Aftercare

0400 477 855

Keep it cool, keep it calm and let your skin do the work.

The night of

If cleansing is needed, use Dermaviduals Total Cleansing Cream with lukewarm water. No rubbing.

Apply ASEA, shake well, allow 10 seconds to dry, followed by Dermaviduals DMS Base Cream High Classic.

If your skin feels warm or flushed, use a cool, damp towel for a few minutes as needed.

Avoid heat, exercise, alcohol, sun, makeup, acids, exfoliants and active skincare tonight.

Calm, hydrate and leave your skin alone.

First 48 hours

AM AND PM

1 Dermaviduals Total Cleansing Cream

2 ASEA, shake well, allow 10 seconds to dry

3 Dermaviduals DMS Base Cream High Classic

Avoid heat, exercise, alcohol, sun, exfoliation, acids, retinoids and other active skincare.

Once appropriate, use your SPF 50+.

Day 3 to 7

AM AND PM

1 Dermaviduals Total Cleansing Cream

2 ASEA, shake well, allow 10 seconds to dry

3 Dermaviduals DMS Base Cream High Classic

Continue SPF 50+ every morning.

No exfoliating, acids, retinoids or aggressive skincare yet.

You may notice the treated vessels looking darker or scabbed and more pronounced before they fade. This can be completely normal. Don't pick or interfere with them.

Week 2 to 4

Once your skin is completely back to normal, you can return to your regular skincare routine, gradually reintroducing your usual Vitamin C, pigment-correcting products and exfoliators if these are part of your routine.

And, as always, SPF 50+ every day.

Not normal Increasing pain, significant swelling, blistering, skin breakdown, spreading redness or anything that is getting worse rather than better.

If you cannot reach me and you are worried, see your GP or go to your nearest emergency department. In an emergency, call 000.

I am a cosmetic skin practitioner. I am not a doctor or a nurse, and I do not diagnose skin conditions.
